Education

Vellore Institute of Technology

B.Tech in Computer Science Engineering

CGPA: 8.21

Vellore, TN

2027

Lucknow Public School & College

Senior Secondary (Class 12)

Lucknow, UP

76%

Amity International School

Higher Secondary (Class 10)

Lucknow, UP

86.68%

Experience

Software Development Intern, IT4T Solutions

May 2026 – Jul 2026

- Engineered secure authentication workflows and database integrations, reducing unauthorized access attempts by 15% and strengthening overall data integrity.
- Designed and implemented 15+ RESTful API endpoints powering 4 core application modules, documented using Swagger for team-wide reference.
- Collaborated with a 5-member cross-functional team across 2-week Agile sprints, contributing to testing, debugging, and iterative feature delivery.
- Optimized backend performance, cutting average API response time by 20% through query and code-level improvements.

Software Development Intern, Uttar Pradesh Metro Rail Corporation (UPMRCL) May 2025 – Jun 2025

- Built an internal IT ticketing platform used by 150+ employees, streamlining issue tracking and support workflows across 6 departments.
- Developed RESTful APIs and implemented role-based access control (RBAC) across 3 permission tiers with priority-based ticket routing, cutting average resolution time by 30%.
- Enhanced backend performance using Redis caching, reducing response latency by 25%, and deployed Dockerized services on AWS EC2.
- Partnered with a 5-member Agile team across 4 sprint cycles, from design and testing to deployment and maintenance.

Projects

AE-MAP: Autoencoder-Based Multi-Omics Analysis Platform

GitHub

Python, PyTorch, TensorFlow, Streamlit

- Engineered a deep multi-view autoencoder integrating genomics, transcriptomics, and proteomics data into a unified latent representation, reducing data dimensionality by 75%.
- Built an end-to-end pipeline processing 1,000+ samples across 3 omics datasets, identifying 4 distinct disease subtypes via an interactive Streamlit dashboard.

Dynamic PDF Template Management System

Live — GitHub

Node.js, Express.js, MongoDB

- Architected a backend system supporting 4+ document types (invoices, receipts, coupons, business documents) for dynamic PDF generation.
- Delivered 10+ reusable RESTful API endpoints with Swagger documentation, cutting new-template creation time by 40%.

Aircraft Seat Map Manager

Live — GitHub

Node.js, Express.js

- Built a backend service supporting configurable seat maps for 5+ aircraft types and airline-specific configurations.
- Designed 8+ REST API endpoints and scalable MongoDB schemas supporting multi-currency pricing across 5 currencies.

Multilingual Language Translator API

Live — GitHub

Node.js, Express.js

- Implemented a RESTful API supporting translation across 10+ languages for structured JSON and CSV files while preserving original formatting.
- Established modular translation workflows with 6+ validation rules, reducing malformed-output errors by 35%.

Skills

Languages C++, Java, Python, JavaScript, SQL, HTML, CSS

Frontend React.js, Redux, React Router

Backend Node.js, Express.js, Flask, RESTful APIs

Databases MongoDB, PostgreSQL, MySQL, Redis

Cloud & DevOps Docker, AWS EC2, Git, GitHub Actions, Postman

AI/ML Machine Learning, Deep Learning, NLP, Computer Vision, TensorFlow, PyTorch, scikit-learn, OpenCV

Concepts Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, Authentication & Authorization, RBAC, CI/CD

Certifications

Oracle Cloud Infrastructure 2025 Certified Generative AI Professional

View

Docker Certification (Simplilearn)
